

# Aqua-Shield 250

## MULTI-PURPOSE

### De-Moisturizing & Lubricating Spray with PTFE micro-suspension

#### ADVANTAGES

- \* Removes condensation
- \* Non conductive
- \* Water resistant
- \* Wide temperature range (-40°F to 302° F )
- \* Extreme pressure, low friction properties
- \* Will not melt or throw off
- \* Compatible with most seals, paints and modern engineering polymers
- \* Long lasting protection
- \* Prevents corrosion
- \* Improves electrical performance
- \* Protects against salt air condensation

#### Aqua-Shield

Repeated exposure may cause skin dryness or cracking. Keep away from sources on ignition—No Smoking, Keep out of the reach of children.

Do not breathe vapor/spray. Wear suitable gloves and safety goggles. Use only in well ventilated areas. MSDS available at :

13.52 Ounces

SHAKE WELL BEFORE USE

EXTREMELY  
FLAMMABLE

- \* **SYNTHETIC BASED FLUID**
- \* **WATER RESISTANT**
- \* **FDA APPROVED BASE CONSTITUENTS**

Aqua-Shield 250 is a completely clean, white, multi-use lubricant spray formulated from synthetic base fluids with special additives to inhibit corrosion. Aqua-Shield incorporates a micronized suspension of PTFE to minimize friction. It provides a high strength, wide temperature (-40°F to 302° F ) lubricant film with **WATER DISPLACEMENT** and protection properties.

Marine-Tec, LLC

15405 Puffin Dr. Bonita Springs, FL 34135

[www.marine-tec.com](http://www.marine-tec.com) 239-287-9160

#### APPLICATIONS:

##### Marine:

Marine electronics, wiring, controls, switches, batteries connections, engine electronics, distributors, plugs, pumps, motors, relays, transformers and all other electrical components

##### Communications:

Switchboards, antennas, connectors, housings, line jacks, relays, transformers, switchgear, batteries, plugs, instrumentation

##### Automotive:

Coils, distributors, generators, spark plugs, starters, electrical circuitry

##### Production:

Housings, instruments, control panels, food processing controls, gauges, motors, parts etc.

##### Refrigeration:

Contactors, motors, relays, switches, thermostats, control panels

##### Maintenance:

Batteries, controls, switches, mechanical tools and equipment, mowers, power tools, VDU's, copiers, office equipment, cable TV connections, etc.

Pressurized Container Protect from sunlight , keep away from flames, do not expose to temperatures above 100°F. Do not puncture or incinerate even when empty. Do not spray on open flame. Wear safety goggles, gloves or other protection necessary when using this product.

IMPORTANT: This information given is based on results gained from testing and experience. However, since the conditions of use are beyond our control, the user should ensure suitability prior to application.
